Let's Start!

Pronunciation Spot: Vanessa deals with a difficult parent.

Learning Outcome

Identify and provide solutions to problems in a range of social contexts.

Ask your partner:

- Have you been in a restaurant with noisy children?
- Did you stay or did you leave?
- Do you say anything to the parent?
Why? Why not?

Can Do Statements

- I can say and use the sound *st*.
- I can offer advice and solutions.
- I can stress new information.

Let's Explore!

Listen to the conversation between Vanessa and a customer at the restaurant. What seems to be the problem?

Instructions: Read the text aloud.

- Vanessa:** Hello there, my name is Vanessa. What a lovely child! Unfortunately, other restaurant patrons are concerned about the noise.
- Customer:** Five-year-olds are always noisy.
- Vanessa:** Well, while I appreciate that your child has a lot of energy, you had better call your child back to your table. He is now running through the kitchen. Maybe this restaurant ought to think about having an area for children to burn some energy.
- Customer:** Madam, this is a fine restaurant. I must make a stand here. Please control your child. We have booster seats available for him to sit at the table.
- Female Customer:** Hey, that little boy just grabbed my purse and stomped on my foot!
- Customer:** The people in our restaurant deserve to have their meals in peace.
- Customer:** This place is too strict. We're leaving ... Charlie!
- Vanessa:** I would also advise you that screaming for your child in a crowded restaurant is not appropriate either.
- Customer:** Give the bill. I don't want to stay.
- Vanessa:** Certainly ... That might be a good idea. You can pay at the front. Have a lovely evening.

Let's Practice!

Time to practice the consonant blend **st**.

Learning Points

Consonant Blends *St* Sound

Consonant clusters like *st* can occur at the beginning of a word in English.

Practice blending the sound from one consonant sound into the next without adding a vowel sound in between.

Read the following words aloud.

Example:

storm	stage	stun	stump
story	stove	student	stub

Learning Points

Stressing New Information

Sentence stress gives English its **rhythm** or "beat".

Word stress is emphasis on **one syllable** within a **word**.

Sentence stress is emphasis on **certain words** within a **sentence**.

Most sentences have two basic types of words:

Content Words

- Content words are the important or key words in a sentence. They provide the meaning of the sentence

Structure Words

- Structure words are not important words. They are small words that you use to make the sentence correct.

Example: ***I do not want to stay.***

The content words are in bold.

Stressing New Information

You pronounce information that is new with stress, since it is more important to the listener.

Example:

Sara: *Where do you come from?*

Sonya: *I'm from **London**.*

The fact that Sonya is from London is new to Sara, thus it is stressed.
